MEET JS

JS Visions founder Jose Serrano embarked on his photography journey shortly after graduating college. With a degree in graphic design, Jose started his career as a photographer's assistant. Over the years, he gained valuable experience working with renowned studios across NY, NJ, PA, CT, and FL. As his passion for photography and his vision for business growth flourished, Jose began establishing his venture: JS Visions Photography & Cinematography.

The defining moment for Jose came when he was asked to step in as the photographer for a wedding on short notice. This opportunity arose when a freelancer encountered a family emergency, and the studio owner turned to Jose, who eagerly accepted the challenge. From that day forward, he knew that photography was his true calling. The profound joy of capturing moments that would become cherished memories for future generations ignited a lifelong dedication to his craft.

Since its inception, JS Visions Photography & Cinematography has evolved into a diverse team of photographers, videographers, and cinematographers who share Jose's distinctive style and unwavering attention to detail. They cater to each customer's unique creative needs, offering a broad range of services. While their primary focus is on wedding photography, they also excel in capturing Bar and Bat Mitzvahs, Sweet Sixteen celebrations, quinceaneras, and portrait sessions from pregnancy to family milestones, as well as corporate photography and video production. Their commitment to excellence and creativity ensures that every special moment is beautifully immortalized.
